A LETTER FROM OUR PRESIDENT & CEO

Each day we have many choices to do the right thing. We have a commitment to our University Medical Center of El Paso's C.A.R.E.S values. Our Associates are comprised of more than 2,800 professionals in many career fields, all working to better the lives of residents in our community, while practicing and believing in our C.A.R.E.S. values.

These values include exceptional Customer service, Accountability, Respect and dignity for our patients, Excellence, and Safety -- in all we do. These values are the foundation of our Code of Conduct and Compliance Program.

My expectation of all our Associates, whether they are new to our hospital or have been here for more than 20 years, is to know and follow our Code of Conduct and our Compliance Program. You are expected to carry out your assigned work and care for those we serve, with integrity and in full compliance with the law.

Our Code of Conduct defines us. Integrity has been defined as doing the right thing when no one is watching. There have been and will always be times when you are trusted to do the right thing without someone telling you to do it. I know and expect that you will rely on our Code of Conduct and our values to guide you.

Part of our Compliance Program's responsibility is to ensure that we maintain an organization that complies with the many laws, rules, and regulations that affect healthcare. To assist us in that endeavor, we have developed the El Paso County Hospital District Compliance Program. The Hospital District's Code of Conduct is a critical component of the Compliance Program. This Code explains many of the basic rules that apply to our hospital, health plan, and clinics and the personal responsibility that each of us have to speak up if we ever see something that doesn't seem right.

Read the Code carefully. I know and have faith that you will always do the right thing but if you ever get into a situation when things simply are not clear to you – refer to our Code or call our Compliance Program office. You may also access the hospital's web-based training on the Code of Conduct.

Our commitment to integrity must always come first. The Code defines how we serve our patients and each other, providing better care and always treating everyone with respect. Your hire at our hospital demonstrates that we believe you are someone who fits our Code. I trust that you will always do the right thing, helping us improve our care for our community for years to come.

Sincerely,

R. Jacob Cintron
President & Chief Executive Officer

PATIENTS' RIGHTS

We make no distinction in the admission, transfer or discharge of patients or in the care we provide. We make every effort to educate, equip and train our caregivers to respect and provide for our patients' particular needs. The hospital respects the patient's right to and need for effective communication. We will respect the dignity, comfort, and privacy of each patient and will treat each with consideration, courtesy and respect.

Each patient is provided the Patient Rights and Responsibilities pamphlet and the Notice of Privacy Practices. We will honor patient advance directives according to all applicable laws.

Each patient can expect to receive appropriate protection involving confidentiality, privacy, and security or protective measures. Appropriate pastoral or spiritual care will be provided. We provide the opportunity for resolution of complaints from patients and their families.

EMERGENCY TREATMENT

We will follow the Emergency Medical Treatment and Active Labor Act ("EMTALA") in providing emergency medical treatment to all patients, regardless of their ability to pay. NEIGHBORHOOD HEALTH CENTERS (Provider Based Clinics)

Neighborhood Health Centers and its staff, under the direction and governance of the El Paso County Hospital District, serve as the medical home for patients in need of healthcare services in a comprehensive primary care clinic setting. Our goal is to provide the highest level of care and patient education, while keeping emergency room visits to a minimum through patient care management. The physicians, office staff and clinical staff are employed by the Hospital District, and follow all district ethical standards, policies and procedures, and Medical Staff Bylaws, including this *Code of Conduct*.

UNIVERSITY MEDICAL CENTER FOUNDATION / EL PASO CHILDREN'S HOSPITAL FOUNDATION

Because the hospital as a whole impacts a large number of people in many ways at different times throughout their lives, we sometimes have individuals and organizations offer a donation to assist in the mission of the El Paso County Hospital District. The University Medical Center Foundation and El Paso Children's Hospital Foundation exists for charitable causes and we feel is the most effective choice for donations, bequests, and endowments from potential donors in the community.

EL PASO HEALTH HEALTHPLANS

El Paso Health Healthplans, Inc., ("EPHH") is committed to ethical business practices and operating in accordance with all applicable federal, state, and local laws, rules, and policies relating to the operations of a health maintenance organization and the delivery of health care services. EPHH has adopted a Compliance Plan to set forth these ethical standards and to provide all contracted providers and staff with a framework for ethical and legal business practices and employment expectations, and to establish mechanisms to aid in the identification and correction of any actual or perceived violations of any applicable laws, rules, regulations, and EPHH's policies and procedures. In order to achieve this purpose, the Plan imposes a duty upon all staff and contracted providers to report, as provided in the Plan, any actual or perceived violation of any applicable laws, rules, regulations, or any policy or procedure of EPHH. EPHH staff and contracted providers who fail to comply with this Plan may face disciplinary actions. All EPHH officers, directors, managers, and employees must know and understand the provisions of this Plan. EPHH will modify this Plan if necessary to comply with the requirements of the Model Compliance Plan for HMOs when such a model plan is issued to the U.S. Department of Health and Human Services, and/or the Office of the Inspector General. EPHH will designate executive and other personnel to attend mandatory training in fraud and abuse detection, prosecution, and reporting.

RELATIONSHIPS WITH OUR HEALTHCARE PARTNERS

AFFILIATED PHYSICIANS

The Hospital District's Medical Staff includes physicians who are employed or affiliated with Texas Tech University Health Sciences Center ("TTUHSC") as well as community physicians. We encourage our Medical Staff to continue respectful and supportive interaction with our workforce in a manner that follows the **Code of Conduct**. There are many aspects of this **Code of Conduct** that pertain to ethical or legal obligations of physicians in hospitals. An expectation to abide by the ethical guide for physicians, i.e. Hippocratic Oath, is inherent in the medical profession. All physicians practicing in this institution will prescribe regimen for the good of the patients according to one's professional ability and judgement and never do harm to anyone.

There are two Federal and State laws that are of particular interest to hospitals doing business with physicians: The Stark Law and the Anti-Kickback Statute. In order to satisfy ethical and legal standards regarding referrals and admissions, these laws are summarized below:

1. We will not pay for referrals. We will accept patient referrals and admissions based solely on the patient's clinical needs and our ability to render the needed services. We will not pay or offer to pay anyone -- colleagues, physicians, or other persons -- for referral of patients. Violation of this policy may have grave consequences for the organization and the individuals involved, including civil and criminal penalties, and possible exclusion from participation in federally funded healthcare programs.
2. We will not accept payments for referrals we make. No Hospital District Associate, nor any other person acting on behalf of the organization, is permitted to solicit or receive anything of value, directly or indirectly, in exchange for the referral of patients. Similarly, when making patient referrals to another healthcare provider, we will not take into account the volume or value of referrals that the provider has made (or may make) to us.

The Hospital District evaluates all physician and referral source contracts for fair market value prior to performance of services under the contract. Along those same lines, proper documentation is required prior to payment for physician services.

BUSINESS PARTNER AGREEMENTS

- We expect our business partners to maintain strong confidentiality protections and limit the use of the information we provide them as prescribed by law and regulation.
- We ask our business partners to comply with our confidentiality agreement during and after the partnership.
- We protect the confidentiality of the information provided to us by our business partners to the extent permitted by law.

BUSINESS ASSOCIATES

- The Hospital District has many business associates. In the normal course of providing quality care for our patients, it is necessary to share our patients' protected health information (PHI) with some of our business associates. As discussed in the Confidentiality section below, The Hospital District will enter into Business Associate Agreements and expects our business associates to protect our patient's protected health information in compliance with the HIPAA Privacy Regulations and all other applicable laws, rules, and regulations.

INFORMATION CONFIDENTIALITY AND SECURITY AGREEMENTS

- All El Paso County Hospital District (EPCHD) Associates, Contractors, Medical Staff, Residents, Allied Health Professionals (AHP's), referring and other Physicians, Volunteers, working on EPCHD premises or accessing the information systems remotely via a virtual private network (VPN) connection who are accessing EPCHD's sensitive and/or patient information must sign an *Information Confidentiality and Security Agreement* prior to any access being granted.

HOSPITAL LEADER CONFLICTS OF INTEREST

- The Hospital District has a fiduciary and ethical responsibility to local taxpayers to maintain an environment of transparency. One of the ways this duty is fulfilled is by ensuring financial conflicts of interest are handled appropriately.
- The Hospital District has an annual disclosure process that is designed to identify and address potential, actual, and apparent Conflicts of Interest with Hospital District leaders and vendors or others who may do business with the Hospital District.

- We will ensure that documentation, charging, coding and billing are performed accurately. We will also ensure that there is documentation to support the services performed and the amounts billed. Communication among University Medical Center of El Paso clinicians, coders and billers is necessary to ensure accurate and correct information, billing and reimbursement.
- We are committed to dealing with our third party payers in a way that demonstrates our commitment to contractual obligations and reflects our shared concern for quality healthcare and bringing efficiency and cost effectiveness to healthcare. We will take great care to assure all billings to government payers, commercial insurance payers and patients are true and accurate and conform to all pertinent federal and state laws and regulations. We will not tolerate any Associate or agent of the Hospital District knowingly presenting or causing to be presented claims for payment or approval that are false, fictitious, or fraudulent.

The Hospital District will deal with all accrediting bodies in a direct, open and honest manner. We will not take any action in relationships with accrediting bodies that would mislead the accreditor or its survey teams, either directly or indirectly.

We are committed to being in full compliance with the standards established by the The Joint Commission (TJC). To that end, this Code addresses our marketing, admission, transfer and discharge policies, as well as billing practices. The Code also addresses the relationship of the hospital and its Associates to other healthcare providers, educational institutions and payers. - We may use marketing and advertising activities to educate the public, provide information to the community, increase awareness of our services, and to recruit colleagues. We will present only truthful, fully informative, and non-deceptive information in these materials and announcements.
- In preparation of bids and proposals related to marketing of the Hospital services to external customers, Hospital Associates are expected to disclose all current, accurate and complete pricing data based upon known facts in instances where facts exist, or upon sincere and honest judgment of the absence of facts. It is never acceptable to underestimate cost or overstate benefits in order to obtain business contracts. Finally, in the performance of a contract, it is Hospital policy that care be taken to prevent any non-approved deviation from the written contract specifications, and that all products or services meet written contractual agreements.
- We strive to fairly and accurately represent the Hospital and its capabilities, avoiding false and misleading, advertising and rejecting high pressure manipulation, or misleading marketing or sales tactics. It is Hospital policy that all marketing materials will reflect services and products available, the current level of licensure and accreditation, and compliance with applicable laws and regulation in advertising and non-discrimination. All verbal and written communications shall be true, fair and accurate.
- A momentary advantage gained through even slight misrepresentation or exaggeration can compromise and endanger the future success of the Hospital.

PROCUREMENT OF GOODS AND SERVICES

- When considering the purchase of a product or services the Hospital will follow the hospital district's Procurement Manual. Associates must allow the Materials Management department to issue legal purchase orders.
- Bids and price quotes may be solicited by sending out Request for Proposal or via telephone calls, as per the Procurement Manual. The hospital district recognizes that obtaining bids and prices quotes may not always be practical: for example, a vendor (or physician) may be a sole source provider if services provided are so unique or specialized that such services are not readily available from another source.

The Hospital District has implemented a formal Compliance Program designed to prevent and detect violations of federal or State law in the conduct of the Hospital operations by Associate, physicians and agents. The effectiveness of the Compliance Program depends on each Associate's willingness to bring issues to the attention of his or her supervisor or the Compliance Officer. All actual or suspected compliance issues must be reported.

- The Compliance Officer of the Hospital District oversees all compliance activities
- We ensure that background checks are performed on all Associates and agents of the Hospital District and ensure that our healthcare providers have not been sanctioned by a federal payer.
