Providers should read the DY6 Sustainability Milestone Companion Document carefully before filling out this Sustainability Milestone Template. The DY6 Sustainability Milestone Companion Document provides detailed directions for filling out the template, including guidance on the types of responses that are acceptable. The DY6 Sustainability Milestone Companion Document also includes three appendices with additional definitions and helpful references.

Providers must respond to each question in the Sustainability Milestone template to be eligible for payment. The Template Progress tab, generated when the first tab of the template is complete, will indicate when the template is complete and ready to be submitted to HHSC. Please do not submit a Sustainability Template if there are any red “Incomplete” indicators on the Template Progress tab.

The questions below should be answered for the provider as a whole; the questions on this tab are not specific to any one project. Please respond to each question with as much detail as possible.

**PROVIDER SELECTION**

Region: RHP 15
TPI - Provider Name: 138951211 - El Paso Co Hosp Dist - University Medical Center

**SECTION 1: COLLABORATION WITH MEDICAID MANAGED CARE**

1) Please find a list of the Medicaid managed care organizations (MCOs) and dental managed care organizations (DMOs) in the managed care service areas overlapping this RHP, as well as the managed care programs in which each MCO or DMO participates. Please select the MCO(s), DMO(s), and program(s) in which the provider is enrolled as a network provider.

- El Paso First - STAR/CHIP
- Molina Healthcare of Texas - STAR/CHIP
- Superior Health Plan - STAR/CHIP
- Superior Health Plan - STAR Health
- DentaQuest - Dental - Medicaid/CHIP
- MCNA Dental - Dental - Medicaid/CHIP
- Amerigroup Texas, Inc. - STAR+PLUS
- Molina Healthcare of Texas - STAR+PLUS
- Amerigroup Texas, Inc. - STAR Kids
- Superior Health Plan - STAR Kids
- [Enter MCO/DMO and program if not listed above]

**Superior Health Plan - STAR/CHIP**

a) Please select the project(s) below to which this MCO/DMO refers its clients, if known. In the field next to the selected project, please describe the services in this project for which the MCO refers its members, if known.

- 1.1
- 1.2
- 1.3
- 1.4
- 1.5
- 1.6
- 1.8
2) Is the provider paid by an MCO or DMO through an alternative payment model (APM)/ value-based payment (VBP) methodology? An APM/VBP methodology is a payment arrangement in which a payer reimburses a provider through a method other than, or in addition to, the traditional fee-for-service (FFS) reimbursement (through incentive bonus payments, or bundled payments around an episode of care, for example).

Yes

a) Please select the applicable APM/VBP methodologies. You can find definitions of these methodologies in the appendix of DY6 Sustainability Milestone Companion Document.

- FFS + Incentive and/or Disincentive Component
- DRG + Incentive and/or Disincentive Component
- Partial Capitation
- Full Capitation
- Bundled Payment

i) Please describe.

Please Describe

ii) Does the provider continue to submit encounter-based claims under this APM/VBP methodology?

Yes

iii) Please provide any feedback on this APM/VBP methodology. What is working? What is not working?

What is working, what is not?

- Episode Payment
- "Non-financial Incentive (i.e. administrative relief, preferential provider status)"
- Supplemental Payments
- Shared Savings/Risk

SECTION 2: HEALTH INFORMATION EXCHANGE

1) Does this provider participate in the exchange of health-related information between/among providers/organizations?

Yes

a) Which individuals/organizations are exchanging the health-related information?

TTUHSC, San Vicente

b) Please indicate the type(s) of health-related information being exchanged.

- Claims data
- Clinical data
- Case notes (i.e., clinician observations, client responses to questions, etc.)
- Other
c) Provide a detailed description of the type(s) of health-related information being exchanged and how the information is used by both parties.

**Description of types of data exchanged**

| d) What systems are being used to exchange the health-related information? |
| Systems used |

| e) Is the health-related information exchanged in “real time”? |
| No |
| i) What is the time lag? |

**Time lag**

| ii) What actions, if any, are being taken to reduce this time lag? |
| Actions ... |

| f) What are the obstacles to the exchange of health-related information between/among providers/organizations? |
| Contract agreement too burdensome |
| Do not have the technology in place |
| The technology is too costly |
| The project does not require additional data |
| Other |

| g) Please describe any actions being taken to overcome these obstacles. |
| Actions to overcome obstacles |

2) Please list any Health Information Exchange(s) (HIE[s]) to which health-related information is being provided or from which health-related information is being received for the purposes of any of the provider’s DSRIP projects.

| Paso Del Norte Health Information Exchange |
